THE MEYER'S BUILDING HISTORY

Known as one of the architectural gems of Greensboro's Elm Street, the Meyer's building was built in 1924 and has been a beloved institution in Greensboro for over 80 years. In the 1980's the Meyer's Department Store was converted into commercial real estate space and has been renovated many times to date. Today, the Meyer's Building offers full service Class 'A' professional office space with ample parking. This iconic building is located in the heart of downtown Greensboro's social, business, and restaurant district on the corner of South Elm Street and February One Place.

Rising four-stories above Elm Street, the Meyer's Building incorporates terra cotta tile, pressed grey brick, and granite in a Neoclassical composition that includes pilasters, and a handsome projecting cornice. The street level of the building features an ornate art nouveau-inspired frieze with floral and foliage motifs. Designated as a local landmark, The Meyer's Building still maintains it's beautiful exterior features while offering updated interior amenities for it's tenants.
